

PGC

PRESSURE / VACUUM GENERATOR -0.95 ... 35 bar / -13.7 ... 510 psi

The PGC is a hand-operated calibration pump that can be used to generate pressure and vacuum. Using the pressure/vacuum selector you can quickly select if you want to generate pressure or vacuum. The fine adjustment provide means to accurately fine adjust the generated pressure.

PGC, PRESSURE / VACUUM GENERATOR	
Output pressure	-0.95 ... 35 bar / -13.7 ... 510 psi
Pressure media	Air
Outlet connector	G 1/8" female with a 60° male internal conical adaptor
Dimensions	220 mm x 120 mm x 65 mm 8.7" x 4.7" x 2.6"
Weight	820 g / 1.81 lb
Standard delivery for a pump kit	<ul style="list-style-type: none"> • Pump • 40 bar / 580 psi pressure T-hose • Connector kit: <ul style="list-style-type: none"> - G 1/8" male, 60° internal cone / G 1/8" male + O-ring - G 1/8" male, 60° internal cone / G 1/4" B female + 2 seals - G 1/8" male, 60° internal cone / G 1/4" NPT male • Carrying case • Instruction manual
Optional accessories	<ul style="list-style-type: none"> • Service seal kit containing a set of seals and gaskets • Fine adjustment valve including relief valve and gaskets • Upper part of pump (cylinder) including pressure/vacuum selector • Bottom part including handles and piston
